Document technique

# **APPLIED MOLDINGS**

Technical document

# **Explication du Document / Document Explanation**

## **!IMPORTANT!**

**Bien que les dessins soient à grandeur réelle, un sablage est effectué sur le dessus et le dos de chaque battant, centre et profil. L'épaisseur peut donc varier et ne sert ici que de référence standard.**

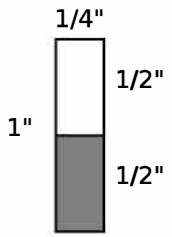

**Toute impression peut modifier l'échelle, veuillez vérifier que les dimensions sont encore à l'échelle pour plus de précision.**

## **!BEWARE!**

**Even if the drawings are on a real size scale, we sand the front and back of each stile, center and profile. The thickness might vary from the drawings and should be only used as a standard reference. Printing this document can change the scale, make sure that the size are still correct before using this document.**
